

Catálogo de Peças

Uno

Julho 97

Impresso nº 60352003

peças
genuínas
FIAT

INTRODUÇÃO

No presente catálogo estão indicadas as peças de reposição do veículo FIAT UNO

O mesmo é dividido em cinco partes:

- Quadro das versões
- Abreviaturas e convenções
- Índice dos subgrupos
- Catalogação geral das peças
- Índice numérico de peças

INSTRUÇÕES PRELIMINARES

- **CATALOGAÇÃO DAS PEÇAS**

A catalogação das peças é feita por grupos conforme segue:

10 Motor

18 Embreagem

21 Câmbio e diferencial

27 Semi-árvores e Componentes do Diferencial

33 Freios

41 Direção

44 Suspensão e Rodas

50 Equipamentos acessórios

55 Sistema Elétrico

70 Carroceria

Tais grupos, por sua vez, estão divididos conforme relacionado no índice dos subgrupos.

- **ILUSTRAÇÕES**

Para caracterização das peças, são utilizadas posições sequenciais nas ilustrações, que correspondem na página descritiva a uma ou mais referências.

Havendo mais de uma referência para uma só posição, as mesmas aparecerão sufixadas por uma letra, indicando desta forma, números de peças distintos, para situações a serem consideradas, tais como: validade da peça, cor, combustível, opcionais, etc.

- **KITS E JOGOS DE PEÇAS**

Se a uma peça ilustrada, corresponder mais de uma posição, deve-se observar atentamente as denominações, pois trata-se de kits ou jogos a que a peça pertence, e em alguns casos, também da peça avulsa para reposição.

- **PÁGINA DESCRITIVA**

É dividido em colunas que representam respectivamente:

REF.: Referência para identificação do número da peça.

Nº PEÇA: Número da peça de reposição.

Números em negrito, representam peças que não são mais disponíveis para reposição, porém há situações que existe solução através de norma de reposição. Nestes casos deve-se seguir a norma de reposição indicada à direita da barra na coluna "VALIDADE", ou na coluna "OBSERVAÇÕES".

As normas de reposição são apresentadas no Sumário das Modificações ao final das tabelas de substituições mensais.

VALIDADE: Serve para restringir a utilização da peça a uma determinada série de veículos, como consequência do ano de fabricação, ou por modificações.

Consiste de dois limites, à esquerda e à direita de uma barra "/", representando respectivamente o início e o término de utilização da peça considerada.

Sendo o limite de validade definido por um número de modificação, deve-se recorrer ao Sumário das Modificações para conhecimento do número do chassi referente ao primeiro ou ao último veículo montado com a referida peça.

DENOMINAÇÃO: Contém a denominação básica da peça.

CÓDIGO DAS VERSÕES: Indica a versão e a respectiva quantidade de peças utilizadas por veículo.

OBSERVAÇÕES: Apresenta particularidades que facilitam a identificação da peça, tais como cor, dimensões, opcionais, combustível, peça alternativa, etc.

Considerar o lado do motorista com esquerdo.

Os opcionais são indicados separados por uma barra "/" ou por um sinal de adição "+".

"/" peça válida para veículos equipados com os opcionais indicados simultaneamente ou não (e/ou).

"+" peça válida somente para veículos equipados com os opcionais indicados simultaneamente (e).

**DIVISÃO DE PEÇAS E ACESSÓRIOS
ESPECIFICAÇÕES TÉCNICAS**

QUADRO DAS VERSÕES

Este quadro apresenta a evolução das versões do FIAT UNO, a fim de facilitar o entendimento do catálogo, quanto ao período de produção/comercialização de cada versão.

As séries especiais são apresentadas neste catálogo sempre a partir de uma versão básica. As peças específicas das séries especiais estão indicadas com aplicação na relativa versão básica, sendo especificada na coluna Observações a série especial considerada.

This technical diagram illustrates the assembly of a fuel system, likely for a small engine or vehicle. The components are numbered 1 through 37. The diagram shows the following parts and their assembly relationships:

- 1**: Fuel line connecting to the main assembly.
- 2**: Multiple O-rings used for sealing connections.
- 3**: Small fittings or connectors.
- 4**: Fuel line connecting to the main assembly.
- 5**: Small fitting or connector.
- 6**: Fuel line connecting to the main assembly.
- 7**: Bolt for securing a component.
- 8**: Bolt for securing a component.
- 9**: Gasket or seal for a flange.
- 10**: Flange or mounting plate.
- 11**: Gasket or seal for a flange.
- 12**: O-ring for a pump or valve.
- 13**: Fuel line connecting to the main assembly.
- 14**: O-ring for a pump or valve.
- 15**: Bracket or support for a component.
- 16**: Fuel line connecting to the main assembly.
- 17**: Fuel line connecting to the main assembly.
- 18**: Small fitting or connector.
- 19**: Fuel line connecting to the main assembly.
- 20**: Fuel line connecting to the main assembly.
- 21**: Bracket or support for a component.
- 22**: Bracket or support for a component.
- 23**: Fuel line connecting to the main assembly.
- 24**: Bracket or support for a component.
- 25**: Bolt for securing a component.
- 26**: Bolt for securing a component.
- 27**: Bolt for securing a component.
- 28**: Bolt for securing a component.
- 29**: Bolt for securing a component.
- 30**: Bolt for securing a component.
- 31**: Bolt for securing a component.
- 32**: Bolt for securing a component.
- 33**: Gasket or seal for a flange.
- 34**: Gasket or seal for a flange.
- 35**: Gasket or seal for a flange.
- 36**: Gasket or seal for a flange.
- 37**: Bracket or support for a component.

The diagram includes two labels with arrows pointing to specific fuel lines:

- BÓIA ENVIO**: Points to the fuel line labeled **1**.
- RETORNO BÓIA**: Points to the fuel line labeled **18**.
